

The effect is where you'll find the difference. Specially formulated to suspend in our coating and casting epoxies for even mixing and setting.

Currently available in 12 unique colors, Polyester Color Glitters are precisely cut from premium vacuum-metalized polyester film. The brilliant nature of these specialty glitters are not only compatible with EcoPoxy resins but is also naturally complimented.

Polyester Color Glitters can be blended to create a lustrous look that enhances your project and complements any decor.

CREATE A LUSTRIOUS LOOK TO YOUR NEXT PROJECT!
